

The Science Seed™

planting a love of science

Summer Camp!

About Us

The Science Seed™ is a science enrichment company that was founded 2007. With a staff of experienced teachers, we offer science classes during regular hours and as an afterschool program in ~ 25 preschools and elementary schools in Northern Virginia.

To learn more about the teacher of our camp, **Cindy Bragg**, please visit:

Dates, Times & Location

July 31, 2017 – August 4, 2017

9:30 am to 12:30 pm

Downtown Baptist Church, Rm 128
212 S Washington St, Alexandria, 22314

For ages 5 – 8 years old as of July 31, 2017

REGISTRATION NOW OPEN

<http://thescienceseed.com/registration-camp>

Camp Cost:

\$200/student

About The Camp Day

The camp day will include time to explore scientific materials, experiment, listen to stories, act out stories and scientific principles, sing science songs, choose among activities, complete a craft, snack (brought from home), and record observations in a personal science journal.

The Science Seed™ will provide a daily note to parents explaining *what we learned* that day and *how to continue the lesson at home*. To finish out the week, caregivers will be invited to a short, informal "showcase" where campers' science-inspired craft creations will be on display and the young scientists will demonstrate some of their discoveries for invited guests. Also on the last day, campers will take home their science journals, which document their week of science learning. Through recording in their journals, the campers learn that scientists are note-takers, journalists, writers, authors, and illustrators.

Science Topics

Each day will focus on a different discipline of science:

Mon: Biology – Human Body, Skin, and Germs

Tues: Earth Science – Volcanoes, Rock Cycle, and Fossils

Wed: Chemistry – Liquid/Solid/Gas, Mixing & Diffusing

Thurs: Physics – Forces, Gravity, and Flight

Fri: Nature – Explore the Seashore, Homes & Habitats
